

A woman with long brown hair, wearing a white t-shirt and denim overalls, is leaning over and pointing at a tablet held by another woman with blonde hair. They are in a cafe or library setting with bookshelves in the background. The woman with the tablet is smiling and looking at the screen. The woman with the overalls is also smiling and looking at the tablet. The background is slightly blurred, showing bookshelves and a wooden wall.

mPOS

## Boost sales for F&B, gift items and tickets

### QUICKLY PROCESS TABLE ORDERS

mPOS allows your staff to take orders quickly. With a couple of taps, your customer's order is taken and sent to the kitchen. Payments can be processed through multiple payment methods.

This boosts your sales efficiency, and helps you to grow your F&B revenue.

### CUT LONG WAITS

The mPOS app is perfect for busy periods when you need to "bust queues". It can be used as a mobile point of sale in order to relieve the ticket desk when it's crowded.

Linked to a ticket or receipt printer by 3G/4G connectivity, mPOS is an ideal solution during peak hours as it will allow you to sell in those areas of your building that are not always equipped with the required cabling.

## Sell on the go with mPOS

Supports table sales, take-away orders, day tickets & time slot tickets

Speedy check-out with multiple payment options - cash, invoice, gift card, etc.

Categorised menu items to place orders quickly

Easily manage orders, maintain shifts, view customer's account details & more

Instantly add items to the basket with built-in camera code scanner

Connect with portable printers to print receipts & tickets with barcode

## Industries we serve

Museums & Attractions
