TASKFLOW

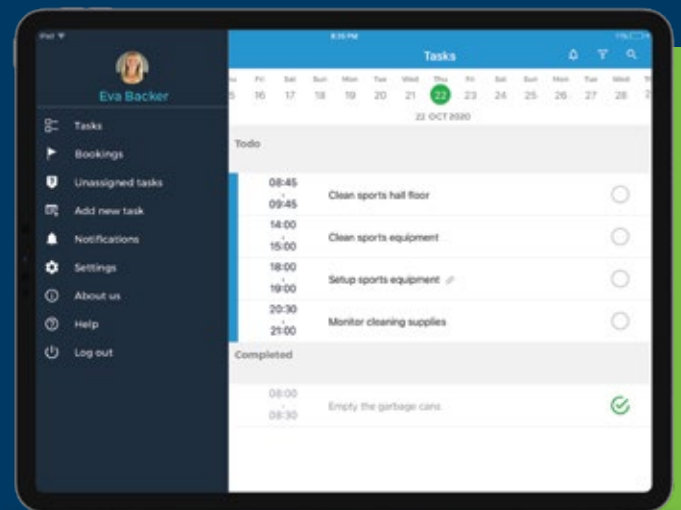

Manage tasks easily

TaskFlow is a personal productivity app that allows roomkeepers, guides and sport coaches to consult and check off tasks that are planned in the Recreatex enterprise application.

The TaskFlow app provides a clear visualisation of your tasks, which facilitates you to swiftly move your To-dos to Done!

Task planners can create and assign tasks using TaskFlow. The assigned employees receive task notifications on their phone.

TaskFlow can be used on iPhone, iPad and Android devices.
